

PREBID REPORT

The online meeting for Pre-bid discussion and presentation was held via Google Meet on Nov 11, 2025 @ 03:00 P.M. at IIT Indore for Procurement of **Desktop Computers, Workstations and Items** through **GeM BOQ Bidding**, Bid No. **GEM/2025/B/6836534**.

The report of the meeting is as below:-

Sl. No.	Reference of Clause No. of the Tender Document	Query / Clarification / Deviation Sought	Clarification / Response from IIT Indore
1	Page No. 11, Section II / Part II, Sl. No. 7	Kindly revise the RAM configuration from 12 DIMM slots to 8 DIMM slots, as 8 DIMM platforms are widely available and industry-standard for this category.	The specification has been formulated based on the functional and performance requirements of the system. The provision of 12 DIMM slots ensures higher memory scalability, improved bandwidth utilization, and flexibility for future upgrades or multi-channel configurations required for high-performance computing. Therefore, the requirement of 12 DIMM slots stands unchanged. However, the bidder may offer a configuration better than or equal to the specified requirement, but not less than 12 DIMM slots.
2	Page No. 11, Section II / Part II, Sl. No. 8	Kindly revise the RAM configuration from 12 DIMM slots to 8 DIMM slots, as per current market-standard server models.	The specification has been formulated considering the functional and performance requirements of the system. The provision of 12 DIMM slots enables greater memory scalability, higher bandwidth, and better flexibility for future expansion to meet advanced computational workloads. Therefore, the requirement of 12 DIMM slots stands unchanged. However, bidders may offer configurations equal to or better than the specified requirement, but not less than 12 DIMM slots.
3	Page No. 11, Section II / Part II, Sl. No. 9	Kindly revise the monitor size requirement from 28-inch to 27-inch, which is a standard commercial size and readily available.	We agree with the suggestion. Kindly read the updated monitor dimension to be 27-inch LED.
4	Page No. 11, Section II / Part II, Sl. No. 10	Kindly provide detailed and complete specifications for the NAS system to ensure correct and competitive bidding. 1. Is the proposed model	Detailed specification of the NAS is following -- Bays: 8-Bay NAS, expandable up to 18 bays with 2× DX525 units Processor: Quad-Core 2.2 GHz minimum Memory: 8 GB DDR4 ECC (expandable to 32 GB)

		required to be rack-mounted or tower-type unit? 2. What is the minimum RAM requirement? 3. What is the intended purpose or application for this storage (e.g., backup, surveillance, data sharing, etc.)?	Networking: 2× 2.5 GbE ports, supports 10/25 GbE via PCIe slot Ports: 3× USB 3.2 Gen 1, 2× expansion ports Storage : NAS grade HDD 128 TB. RAID Type: Basic, JBOD, RAID 0, RAID 1, RAID 5, RAID 6, RAID 10 Additional clarifications: 1. The NAS would be tower-type. 2. Minimum RAM: 8 GB DDR4 ECC (expandable to 32 GB) 3. Features/Will be used for: Backup, replication, virtualization, surveillance (via DSM)
5	Page No. 12, Additional Terms and Conditions, Sl. No. 2	Kindly remove the requirements for ISO 45001:2018 and ISO 22301:2012, as these are not standard prerequisites for the supplied category of equipment.	The requirement for ISO 45001:2018 (Occupational Health & Safety Management System) and ISO 22301:2012 (Business Continuity Management System) certifications have been included to ensure that the OEM adheres to globally recognized standards for workplace safety, operational reliability, and risk management. These certifications are essential to guarantee uninterrupted support, safety compliance, and service quality throughout the product lifecycle. The indented products will be used in sophisticated laboratory environments requiring high accuracy and reliable data, hence such certifications are considered critical. Therefore, no change in the tender condition is envisaged.
6	Page No. 12, Additional Terms and Conditions, Sl. No. 6.	Kindly remove the requirement for OEM local office in MP and consider eligibility as per Bidder's documents for local office in MP. Request to modify the clause accordingly.	For ongoing research work, the required computational facility should be continuous and reliable in nature, ensuring that any minor technical issues are resolved promptly to avoid disruption of critical research activities. The requirement for OEM / Bidder's service center or local office in Madhya Pradesh has therefore been included to ensure timely technical support and quick resolution of service issues, ideally within one or two working days.

Note:-

- The date of submission of online bids is extended up to 25/11/2025 @ 15:00 Hrs.
- The date of opening of bids is extended up to 25/11/2025 @ 15:30 Hrs.
- All prospective/willing bidders are requested to take note of this report as part of the tender document. All other parts of the tender including the terms and conditions will remain unchanged.
