

71 Army officers get BTech, MTech degrees at MCTE

TIMES NEWS NETWORK

Mhow: Fifty one officers of Signal Officer Degree Engineering (SODE-111) course were awarded BTech degree in telecommunication and information technology by Jawaharlal Nehru University, while 20 undergoing Signals Officers Advance Technology Engineering (SOATE-42) course at Military College of Telecommunication Engineering (MCTE), Mhow, received MTech degree in computer science with specialization in IT and communication by Devi Ahilya Vishva Vidyalaya, Indore.

Indian Institute of Technology, Indore, director Prof Suhas S Joshi was chief guest of the convocation ceremony, while MCTE commandant Lt Gen KH Gawas presided over the function. A communiqué from MCTE states that 51 graduating officers, including eight from friendly foreign countries — Nepal, Sri Lanka, Vietnam and Bhutan — were awarded with BTech degree. Twenty officers were awarded with

IIT-I director was chief guest at the convocation ceremony

MTech. degree in computer science with specialization in IT and communication from Devi Ahilya Vishva Vidyalaya, Indore.

Addressing the students officers, Prof Joshi commended their performance and stressed on importance of critical role of communications and information technology in future warfare. He emphasized upon importance of industry academia partnership with defence forces for nation building. He also encouraged the officers to remain professionally updated to meet future

challenges in the field.

Lt Gen KH Gawas admitted officers to engineer's fraternity and reminded officers of their duties, responsibilities of being an officer and an engineer. He also highlighted the need to continue upgrading and updating skill sets to meet future challenges.

Officiating deputy commandant and MCTE chief instructor brigadier Rajeev Ohri administered pledge to graduating officers and encouraged them to enhance professional knowledge in discharge of their duties.
