IITI DRISHTI CPS FOUNDATION
(A Section 8 - Not for Profit Company)

Advt. No. – IITI-DRISHTI-CPS/Sec-8/2026/21

Date: 30th April 2026

IITI DRISHTI CPS Foundation is a Technology Translation Research Park (TTRP) hosted at IIT Indore and supported by the Department of Science & Technology (DST), Government of India. The Foundation focuses on Digital Healthcare, Cyber-Physical Systems, system simulation and modelling, translational research, and commercialization of deep-tech innovations. The Foundation works closely with researchers, clinicians, hospitals, healthcare institutions, government bodies, and industry partners to translate technologies from early-stage research to large-scale deployment and commercialization. One of the flagship platforms developed in-house is CharakDT, a rapidly evolving Digital Health and Clinical Decision Support ecosystem <https://drishticps.iiti.ac.in/>.

Profile Description: Research Scientist at IITI DRISHTI CPS Foundation.

IITI DRISHTI CPS Foundation is seeking a Research Scientist to oversee the planning, execution, and delivery of its initiatives in digital healthcare. The successful candidate will be a key liaison between faculty members, collaborators, industry experts, end users, and other stakeholders, ensuring seamless communication and coordination. This role requires an individual with strong organizational skills and the ability to manage multiple projects efficiently while contributing to the Center's mission of advancing digital healthcare solutions.

What We Offer

- An opportunity to work on innovative projects that have a real-world impact.
- Collaborative and inclusive work environment.
- Access to state-of-the-art facilities and resources.
- Professional development and growth opportunities.

Job Title: Research Scientist

Job Location: IIT Indore

No. of Positions: 1

Key Responsibilities & Preferred Skills :

Stakeholder Coordination

- Build effective communication channels with faculty, industry personnel, end users, and collaborators.
- Represent the Center at various forums, meetings, and events as required.

Project Management

- Organize, communicate, and monitor the progress of projects and specific assignments to team members and stakeholders.
- Act as a central point of contact to resolve any project-related challenges.

Documentation and Planning

- Prepare essential project management documents, including project budgets, schedules, scope statements, and plans.
- Conduct project analytics to evaluate and demonstrate the impact of projects executed by the Center, including performance metrics, success stories, and stakeholder feedback.
- Ensure timely and accurate documentation of project deliverables and milestones.

Strategic Understanding and Execution

- Develop a thorough understanding of the Center's core thrust areas, programs, and technology verticals in digital healthcare.
- Align project execution strategies with the Center's objectives and vision.

Collaboration and Communication

- Facilitate collaboration between multidisciplinary teams, including faculty researchers, industry experts, and end users.
- Provide regular updates to stakeholders on project status, risks, and outcomes.

Qualifications

- Bachelor's or master's degree in project management, Healthcare, Engineering, or a related field.
- Experience in project coordination, preferably in the healthcare domain or with healthcare-related projects in a research or technology-driven environment.

Preferred Skills

- Prior experience in a research or academic institution.
- Understanding of healthcare industry standards and trends.
- Experience with stakeholder management and public representation.

Additional Requirements or Preferences:

- Proposed Timeline for joining: Immediate / Within 30 days
