

Background: IEAC established in 2018 helping for energy conservation and cleaner production strategies for industries PAN India. Operations at IIT – Madras, IIT – Bombay, IIT – Indore, IIT – Ropar, IIT – Gandhinagar, IIT – Hyderabad and IIT – Guwahati are CSR funded activity of Kotak Mahindra Bank Ltd. titled as Kotak IITM Save Energy Mission (KISEM) for carrying out Energy Assessments in MSMEs. Energy Assessments are carried out mainly in Large Scale and MSME industries

IIT Indore-Industrial Energy Assessment Cell (IEAC) was established in the year 2022 with the motto of "research and technological service to the nation towards sustainable energy and resource management". As a part of this, to help large and small-scale industries reduce energy consumption through Energy assessments as well as providing evaluated technological solutions. IEAC team generally consists of BEE Certified Energy Auditor, Project Manager, Electrical and Mechanical Technicians, Industry Consultants and Faculty members we conduct walk-through and detailed energy assessments in typical process industries to explore, evaluate and recommend the hidden potentials for reducing their specific energy consumption in all possible ways.

IEAC-IITI team have already carried out a number of detailed assessments (audits) and a large number of walkthrough assessments in Textile, Iron & Steel, Cement, Chemical, Rubber, FMCG, Automotive and other sectors. The energy assessment, in general, covers all the utilities which are common in general across all the industries. Such assessments have resulted in significant savings for industries - of the order of Rs. 50 lacs to Rs. 1 Cr. or above depending upon the size of the operation of the industry.

If you are passionate about Energy and Sustainability, looking to collaborate with Industry experts to identify and drive energy efficiency at Industries, check out the positions below and apply. [Submit the CV](#) . For further information, you can drop us an email at dldeshmukh@iiti.ac.in
