Computational Fluid Dynamics in Engineering and Science

December 15, 2020

Computational Fluid Dynamics (CFD) finds application in almost all fields of Engineering and Science. In this two hour webinar, a brief introduction to CFD and its application in Engineering (Mechanical, Aerospace, Chemical, Civil, Biomedical, Environmental, Material Science, Agriculture, Petroleum, Geological, Nuclear, Marine, Nanotechnology, Mining, Ceramics, Metallurgical, etc) and Science (Applied Mathematics, Physics, Chemistry, Biosciences, Earth, Space, Biology, Oceanography, Meteorology, Geology, life sciences etc) will be given with specific examples.

Who should attend?

- CFD enthusiasts and beginners from any branch of Engineering and Science (UG, PG, PhD students, Faculty members and Scientists).
- The webinar will be very basic in nature.

Presenter: Dr. Shanmugam Dhinakaran
Associate Professor in Mechanical Engineering
INDIAN INSTITUTE OF TECHNOLOGY INDORE
